If no property is left in the class and there is a positive amount in this column, deduct the amount from income as a terminal loss in Part 4 on line 9270. *** For information on CCA for "Part 7 - Calculating business-use-of-home expenses," see "Special situations" in Chapter 4 of Guide T4002. To help you calculate the CCA, see the calculation charts in Areas B to G.

See next page for notes 1 to 7.

Note 1: Columns 4, 6, 8 and 9 apply only to designated immediate expensing properties (DIEPs). See subsection 1104(3.1) of the federal Income Tax Regulations for the definitions. A DIEP is a property that you acquired after December 31, 2021, and that became available for use in the current year. For more information, see Guide T4002.

Note 2: The proceeds of disposition of a zero-emission passenger vehicle (ZEPV) that has been included in Class 54, or a passenger vehicle bought after April 18, 2021, that has been included in Class 10.1, and whose cost is more than the prescribed amount will be adjusted based on a factor equal to its prescribed amount as a proportion of the actual cost of the vehicle. For dispositions after July 29, 2019, you will have to adjust the actual cost of the vehicle for any payments or repayments of government assistance that you may have received or repaid for the vehicle. If the passenger vehicle in Class 10.1 is not designated for immediate expensing treatment, this special rule does not apply. For more information on proceeds of disposition and prescribed amounts, read "Class 10.1 (30%)" and "Class 54 (30%)" in Guide T4002.

Note 3: The amount you enter in column 8 must not be more than the amount in column 7. If the amount in column 7 is negative, enter "0."

Note 4: The immediate expensing applies to DIEPs included in column 8. The total immediate expensing amount for the tax year (total of column 9) is limited to the lesser of:

- the immediate expensing limit, which is equal to one of the following, whichever is applicable:
  - $1.5 million, if you are not associated with any other eligible person or partnership (EPOP) in the tax year
  - amount iii of Area G, if you are associated with one or more EPOPs in the tax year
  - zero, if you are associated with one or more EPOPs and an agreement that assigns a percentage to one or more of the associated EPOPs was not filed with the Minister in a prescribed form
  - any amount allocated by the Minister under subsection 1104(3.4) of the Regulations
- the UCC of DIEPs in column 8
- the amount of income, if any, earned from the source of income that is a business (before any CCA deductions) in which therelevant DIEP is used for the tax year

For more information, see Guide T4002.

Note 5: Columns 11, 13 and 14 apply only to accelerated investment incentive properties (AIIPs) (see subsection 1104(4) of the federal Income Tax Regulations for the definition), zero-emission vehicles (ZEVs), ZEPVs and other eligible zero-emission automotive equipment and vehicles that become available for use in the year. In this chart, ZEVs represent zero-emission vehicles, zero-emission passenger vehicles and other eligible zero-emission automotive equipment and vehicles. An AIIP is a property (other than a ZEV) that you acquired after November 20, 2018, and that became available for use before 2028.
A ZEV is a motor vehicle included in Class 54 or 55 that you acquired after March 18, 2019, and that became available for use before 2028, or eligible zero-emission automotive equipment and vehicles included in Class 56 acquired after March 1, 2020, and that became available for use before 2028. For more information, see Guide T4002.

Note 6: For properties available for use before 2026, the relevant factors are 1 1/2 (Classes 43.1, 54, and 56), 7/8 (Class 55), 1/2 (Classes 43.2 and 53), and 0 for any remaining AIIPs not listed in this note.

Note 7: If, in the year, you disposed of a property that you used for both personal and business use, and your business use of that property changed from year to year, you must subtract any remaining personal part of this property's cost from the UCC at the end of the year. For more information, see "Special situations" in Chapter 4 of Guide T4002.

Calculation of Capital Gains Deduction

2024

Use this form to calculate your capital gains deduction on line 25400 of your return if:

- You disposed of qualified farm or fishing property (QFFP) or qualified small business corporation shares (QSBCS) in 2024
- You are reporting an amount from a 2023 reserve in 2024 from the disposition of QFFP or QSBCS

For definitions of qualified farm or fishing property and qualified small business corporation shares, see Guide T4037, Capital Gains.

Notes: You must be a resident of Canada throughout 2024 to be eligible to claim the capital gains deduction. For the purpose of this deduction, you are deemed to be a resident throughout 2024 if you were a resident of Canada at any time in 2024 and throughout 2023 or 2025.

Deferred capital gains from the disposition of QSBCS do not qualify for this deduction and should have been reported at lines 10689, 10690, 13199, and 13200 instead of lines 10683, 10684, 10699 and 10700 (for more information see Guide T4037, Capital Gains).

Before you start

Complete Schedule 3, Capital Gains or Losses, to report the disposition of QFFP, QSBCS or the inclusion of reserve amount from prior-year dispositions of QFFP or QSBCS, and to calculate your taxable capital gain or loss for 2024.
Complete Form T2017, Summary of Reserves on Dispositions of Capital Property, if you are reporting a reserve claimed on your 2023 return or are claiming a reserve for 2024.
Complete Form T936, Calculation of Cumulative Net Investment Loss (CNIL) to December 31, 2024, if you have investment income or investment expenses in 2024. Form T936 lists the components of investment income and expenses for the purpose of calculating your CNIL.

To get these forms, go to canada.ca/cra-forms-publications.

Capital gains deduction limit

For 2024, there are two lifetime capital gains exemption (LCGE) limits:

- For dispositions in Period 1 from January 1 to June 24, 2024, the limit is $1,016,836.
- For dispositions in Period 2 from June 25 to December 31, 2024, the limit is $1,250,000.

If you disposed of QFFP, QSBCS, or claimed a reserve for a disposition of QFFP or QSBCS in a previous tax year you may be eligible for the LCGE.

For dispositions of QFFP or QSBCS at any time in 2024, only half of the capital gain is included in your taxable capital gains, so the cumulative capital gains deduction is limited to half of the LCGE amount available.

For dispositions of QFFP after April 20, 2015 and before January 1, 2024, the LCGE is increased to $1,000,000.
This additional deduction does not apply to dispositions of QSBCS. There is no additional deduction for QFFP in 2024.

Qualified farm or fishing property (QFFP) and qualified small business corporation shares (QSBCS)

When you dispose of QFFP or QSBCS and have a capital gain, you can claim a capital gains deduction in 2024 that is equal to whichever of the following amounts is the least:

- your annual gains limit for 2024
- your cumulative gains limit for 2024
- your net taxable capital gains reported in 2024 from dispositions of QFFP or QSBCS, or if you are reporting a reserve in 2024 from the disposition of qualifying capital property
- your maximum capital gains deduction available for 2024

There is an election available if you own shares of a qualifying small business corporation that stops being a small business corporation for one of the following reasons:

- a class of its shares is listed on a designated stock exchange
- after 1999, a class of another corporation's shares is listed on a designated stock exchange.

This election allows you to report a taxable capital gain on your income tax and benefit return and claim up to $508,418 for dispositions before June 25, 2024 and up to $625,000 for dispositions after June 24, 2024 for the capital gains deduction, even though you did not actually sell your shares. The deduction applies to any gain you have on these shares up to the date the shares are listed. To make this election, complete Form T2101, Election for Gains on Shares of a Corporation Becoming Public. To get this form, go to canada.ca/cra-forms-publications.

Allocation and designation of capital gains from QFFP and QSBCS by a trust

If you are a beneficiary of a trust and received a 2024 T3 slip from the trust with an amount reported in box 30, you may include this amount when calculating your capital gains deduction, as noted below.

The amount in box 30 represents the capital gains from dispositions of QFFP or QSBCS by the trust that occurred in 2024 or relates to a capital gains reserve claimed by the trust in a previous year.

If the disposition occurred in the current tax year of the trust, boxes 54 to 57 on the T3 slip will indicate what portion of the box 30 amount relates to dispositions of QFFP or QSBCS and whether the gain is for a disposition that occurred in Period 1 or Period 2. Capital gains realized by the trust and allocated to you in 2024 are included in the amount on line 10684 or line 10686 for Period 1, and line 10700 or line 11000 for Period 2 of Schedule 3, as applicable. To calculate your capital gains deduction, complete the Period 1 or Period 2 parts of "Chart 2024 – Capital gains deduction", as applicable.

If the disposition occurred in one of the four preceding tax years of the trust, the footnote area of the T3 slip will indicate that the gain reported in box 30 is from the disposition of QFFP or QSBCS, and the year that the trust disposed of the property. These gains should not be included on "Chart 2024 – Capital gains deduction". Complete the applicable charts for the 2020 to 2023 years (as determined in Step 3a, based on the trust's year of disposition).

Example

You received a 2024 T3 slip for a trust. The footnotes area indicates that the capital gain shown in box 30 is from the disposition of QFFP that occurred in 2021. Based on the questions in Step 3a, complete Part 1 and Part 2 of "Chart 2021 – Capital gains deduction".
