# Appendix A – Exclusions from electronic filing

Electronic filing for T1 returns (EFILE) is limited to 2014, 2015, 2016, and 2017 income tax returns. While most taxpayers will qualify to have their returns electronically filed using EFILE, certain situations may still exclude a taxpayer from EFILE for these years, including the following 2017 criteria:

1. The taxpayer is a deemed resident (not subject to provincial or territorial tax).
2. The taxpayer died prior to the current tax year. Early filed and elective deceased returns also remain as exclusions.
3. The taxpayer's social insurance number begins with a 0. Only newcomers to Canada with a SIN starting with 0 are eligible to use EFILE.
4. When the taxpayer is coded “bankrupt” according to the Canada Revenue Agency’s records, the T1 return for the year immediately prior to the year of bankruptcy (if not previously filed by the taxpayer) is an exclusion and must be filed by the trustee in bankruptcy. The “in-bankruptcy” and “post-bankruptcy” returns are also exclusions from EFILE. Only pre-bankruptcy returns that are not early-filed are accepted through EFILE.
5. The taxpayer is an emigrant or a non-resident, including seasonal agricultural workers. This excludes the following income and tax forms:
   - Schedule A
   - Schedule B
   - Schedule C
   - Income from NR4 slips, T4A-NR slips, NR-OAS slips and NR-CPP slips
   - Section 116 income
   - Section 216 income
   - Section 217 income
   - Taxable capital gains from disposing of Canadian property if received as a non-resident
   - OASRI
6. The taxpayer’s address is outside Canada.
7. The taxpayer is reporting:
   - Canadian source income from Lloyds of London;
   - employment income earned from an international organization;
   - lump-sum pension income accrued to December 31, 1971;
   - more than 6 SFD records;
   - an Ontario, Saskatchewan, British Columbia, or Yukon qualifying environmental (mining reclamation) trust tax credit;
   - a Form T1198, Statement of Qualifying Retroactive Lump-Sum Payment; or,
   - a Nova Scotia research and development tax credit recapture.
8. The taxpayer is electing to defer tax on a distribution of spin-off shares by foreign corporations.
9. The taxpayer is claiming:
   - less than the maximum federal foreign tax credit;
   - foreign taxes paid to more than three countries;
   - foreign business taxes paid to more than three countries;
   - a deduction for scientific research and experimental development expenses;
   - Form T89, Alberta Stock Savings Plan Tax Credit.

10. The taxpayer is reporting farming income with the AgriStability and AgriInvest programs application, which involves:
    - farming income from a partnership reported on a T5013 slip or a partnership that includes a corporate partner;
    - a status Indian reporting tax-exempt self-employed income;
    - more than 50 occurrences for either crop or livestock inventory (SFD type 09 only).
11. The taxpayer is filing Form RC199, *Voluntary Disclosures Program (VDP), Taxpayer Agreement* or the taxpayer is making a request to the Voluntary Disclosures Program.

# Appendix C – Valid characters

The following chart illustrates the acceptable characters for each field of the identification record. Additional requirements are listed below the chart. In general, key hyphens using a dash, and Roman numerals are to be keyed as alpha characters.

| Character | First name | Last name | "care of" line | Street address | City | Province | Spouse name |
|---|---|---|---|---|---|---|---|
| Alphabetic | X | X | X | X | X | X | X |
| Numeric | | | X | X | X | | |

**Note:** A period or space is a valid character at any position except at the first position.

**Name fields:**

- All name fields must begin and end with an alpha character.
- Do not key titles in the taxpayer's name (e.g., Ms, Rev, Dr).
- Where there is a suffix after the taxpayer's name, leave one space between the surname and the suffix.
- For hyphenated names, do not leave a space, (e.g., Jones-Smith).
- Where the taxpayer has multiple first names (e.g., Mary Lou), leave a space between the names.
- The highlighted areas in the above chart indicate the characters which are not allowed in the first or last position of the "care of line" and the "street address."
- For city, the only allowable combination for the special characters for period, space, hyphen and slash is a period followed by a hyphen.

**Address fields:**

- All address fields must begin and end with an alpha or numeric character.
- Where fractions appear in an address, key as 45 1/2.
- Leave **only 1 space** to separate numbers and words (e.g., 75 3 Garden St).
- Do not enter "c/o" or the "c/o" information in the client's address lines.
- Do not make an entry on the "care of" line unless it is to be used as part of the taxpayer's mailing address.
- To ensure the address is in the correct format it should be in the order "Apartment number – Building number – Street name – Street type – Street direction."
- **For example:** 123 – 456 Any Name Avenue West.

# Appendix D – MOD-10 check

## Appendix D1 – MOD-10 check for SIN

A social insurance number (SIN) can be validated by performing a MOD-10 calculation. Instructions for completing the MOD-10 calculation and an example are provided below.

| | |
|---|---|
| Social insurance number (9 digits) | 5-2-7-0-0-0-0-5-3 |
| 1. Starting with the second digit from the right (that is, the last digit of the SIN is dropped), assign the value of 2. Alternate the values between 2 and 1. | 1-2-1-2-1-2-1-2 |
| 2. Multiply each digit of the SIN by the assigned value. | 5-4-7-0-0-0-0-10 |
| 3. Add all the digits together. Double digit numbers are treated as two separate digits. For example, 10 is 1 + 0. | 5+4+7+0+0+0+0+1+0 = 17 |
| 4. Divide the sum by 10. | 17 divided by 10 equals 1, with a remainder of 7 |
| 5. Subtract the remainder from 10. | 10 minus 7 = 3 |
| 6. The check digit is equal to **3**. If the remainder is zero, then the check digit is zero. | |
| The check digit is the last digit of the SIN. Therefore, if the digit in (6) above agrees with the last digit of the SIN, then the number submitted is a valid number. In the above example, the check digit is **3**. | |
| **Note:** The MOD-10 calculation does not verify that the SIN belongs to a specific individual. | |

## Appendix D2 – MOD-10 check for AgriStability and AgriInvest PIN

A participant identification number (PIN) can be validated by performing a MOD-10 calculation. Instructions for completing the MOD-10 calculation and an example are provided below.

| | |
|---|---|
| Participant identification number (maximum 8 digits) | 8-0-6-6-3 |
| If the PIN is not 8 digits long, pad it with zeros in the front. | 0-0-0-8-0-6-6-3 |
| 1. Starting with the second digit from the right (that is, the last digit of the PIN is dropped), assign the value of 2. Alternate values between 2 and 1. | 2-1-2-1-2-1-2 |
| 2. Multiply each digit of the PIN by the assigned value. | 0-0-0-8-0-6-12 |
| 3. Add all the digits together. Double digit numbers are treated as two separate digits. For example, 12 is 1 + 2. | 0+0+0+8+0+6+1+2 = 17 |
| 4. Divide the sum by 10. | 17 divided by 10 equals 1, with a remainder of 7 |
| 5. Subtract the remainder from 10. | 10 minus 7 = 3 |
| 6. The check digit is equal to **3**. If the remainder is zero, then the check digit is zero. | |
| The check digit is the last digit of the PIN. Therefore, if the digit in (6) above agrees with the last digit of the PIN, then the number submitted is a valid number. In the above example, the check digit is **3**. | |
| **Note:** The MOD-10 calculation does not verify that the PIN belongs to a specific individual. | |

# Appendix H – Inter-provincial calculation for CPP and QPP contributions and overpayments

Form RC381, *Inter-Provincial Calculation for CPP and QPP Contributions and Overpayments*, is used by individuals who:

- earned employment income in Quebec and contribute to the QPP but resided outside of Quebec on December 31, 2017; or,
- earned employment income outside of Quebec and contributed to the CPP but resided in Quebec on December 31, 2017; or,
- contributed to both the CPP and QPP.

Currently, the Quebec Pension Plan (QPP) rate is used to calculate any CPP/QPP overpayments when an individual resides in Quebec. Otherwise, for non-QC residents, the CPP rate is used. Therefore, for all provinces of residence:

- the CPP rate will be used to calculate CPP contributions and overpayments for employment and self-employment in all jurisdictions, other than QC;
- the QPP rate will be used to calculate QPP contributions and overpayments for employment and self-employment in QC.

**Example 1 – Quebec resident, CPP and QPP, business income**

A 50 year old taxpayer (resident in Quebec) contributed to both CPP and QPP. There is a T4 slip from Quebec (box 14 and box 26 = $20,000) and a non-Quebec T4 (box 14 and box 26 = $15,000). The gross business income is $70,000 and the net business income from line 21 of the Revenu Quebec Form LE-35-V is $23,000.

**Example 6 – Non-Quebec resident, CPP and QPP, CPT20 election**

A 62 year old taxpayer (resident of a province or territory other than Quebec) contributed to both CPP and QPP. She has a T4 slip from Quebec (box 14 and 26 = $15,000) and three non-Quebec T4s (box 14 and 26 = $20,000; box 14 and 16 = $4,000; and box 14 and 26 = $2,000). No self-employment income reported. She has elected to pay additional CPP contributions on her under-deducted employment earnings.

# Appendix I – Working beneficiaries with pensionable employment earnings

Working beneficiaries between 60 to 70 years of age are required to contribute to the Canada Pension Plan (CPP) whether they are employed or self-employed.

Working beneficiaries at least 65 years of age, but under 70, may make an election to stop contributions to the CPP. This election may be revoked in a subsequent year.

When there is an election in the tax year, the taxpayer will not contribute to CPP starting with the election effective month.

**Example 1:**

- The election effective date on record is April 2017. The taxpayer files a 2017 T1 return with CPP contributions.
- The CPP contribution will be calculated from January to March only. The proration factor of 3/12 will be used.
- For future years and elections made in December, the effective date will be January of the subsequent year. The taxpayer may also revoke in this subsequent year, meaning the system will have to use both election and revocation effective dates.

**Example 2:**

- The election effective date on record is January 2017, meaning an election was made December 2016. Therefore, a revocation can be made in 2017. The revocation effective date on record is June 2017.
- The CPP contributions will be calculated for June to December. The proration factor of 7/12 will be used.

**Example 3:**

- The 68 year old taxpayer works in and out of Quebec. He is in receipt of CPP retirement benefits and has a CPT30 election on record with an effective date of April 2017.
- The taxpayer files 2017 T1 return with CPP and QPP contributions indicated on Form RC381.
- The system will calculate QPP contributions based on the QPP pensionable earnings at field 5548, for the entire year.
- The CPP contributions will be calculated for January to March only. The proration factor of 3/12 will be used by the system.
- When there is a relevant **revocation** in the tax year, the taxpayer will contribute to CPP, starting in the revocation effective month.

**Example 4:**

- There is a relevant revocation effective date on record as April 2017. The taxpayer files a 2017 T1 return with CPP contributions.
- The CPP contributions will be calculated for April to December. The proration factor of 9/12 will be used by the system.

# Appendix J – Spouse's or common-law partner's capital gain from mortgage foreclosures and conditional sales repossessions

Supporting field **5230** captures the spouse's or common-law partner's capital gain from mortgage foreclosures and conditional sales repossessions. This type of gain is excluded from the calculation of net income in order to determine the refundable medical expense supplement, the working income tax benefit, and the low-income tax reduction for the provinces of Newfoundland and Labrador, Prince Edward Island, Nova Scotia, New Brunswick, and the British Columbia sales tax credit.

**The amount at field 5230 is calculated as follows:**

- If there is no amount at field 127, field 5230 is equal to zero.
- If there is an amount at field 127, the following rules apply:

1. If field 124 and field 155 are both less than or equal to zero, field 5230 is equal to zero. See example 1 below.
2. If field 124 is less than or equal to zero but field 155 is greater than zero, compare the taxable portion of the amount at field 155 with the amount at field 127:
   a. If the taxable portion is less than field 127, field 5230 is equal to the taxable portion of field 155. See example 2a below.
   b. If the taxable portion is greater than or equal to field 127, field 5230 is equal to the amount at field 127. See example 2b below.
3. If field 124 is greater than zero but field 155 is less than or equal to zero, compare the taxable portion of the amount at field 124 with the amount at field 127:
   a. If the taxable portion is less than field 127, field 5230 is equal to the taxable portion of field 124. See example 3a below.
   b. If the taxable portion is greater than or equal to field 127, field 5230 is equal to the amount at field 127. See example 3b below.
4. If field 124 and field 155 are both greater than zero, compare the taxable portion of the total of the amounts reported at these fields with the amount at field 127:
   a. If the taxable portion is less than field 127, field 5230 is equal to the taxable portion of the amounts at fields 124 and 155. See example 4a below.
   b. If the taxable portion is greater than or equal to field 127, field 5230 is equal to the amount at field 127. See example 4b below.

**Example 1 – Field 124 and field 155 are both less than or equal to zero:**

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = loss of $2,000
- Field 155 = $0
- Field 127 = $0

In this situation, no entry is required for field 5230 on the taxpayer's return.

**Example 2a – Field 124 is less than or equal to 0 but field 155 is greater than zero:**

Fields on the spouse's or common-law partner's Schedule 3:

Canada Revenue Agency confidential information

- Field 124 = loss of $1,000
- Field 155 = gain of $3,000
- Field 132 = gain of $5,000
- Field 127 = $3,500

The taxable portion of field 155 is $1,500 (50% of $3,000). The lesser of the taxable capital gain at field 155 and the amount at field 127 is $1,500.

In this situation, field 5230 = $1,500.

**Example 2b – Field 124 is less than or equal to 0 but field 155 is greater than zero:**

Fields on the spouse's or common-law partner's Schedule 3:
- Field 124 = loss of $1,000
- Field 155 = gain of $5,000
- Field 132 = loss of $2,000
- Field 127 = $1,000

The taxable portion of field 155 is $2,500 (50% of $5,000). The lesser of the taxable capital gain at field 155 and the amount at field 127 is $1,000.

In this situation, field 5230 = $1,000.

**Example 3a – Field 124 is greater than 0 but field 155 is less than or equal to zero:**

Fields on the spouse's or common-law partner's Schedule 3:
- Field 124 = gain of $4,000
- Field 155 = loss of $3,000
- Field 107 = gain of $5,000
- Field 127 = $3000

The taxable portion of field 124 is $2,000 (50% of $4,000). The lesser of the taxable capital gain at field 124 and the amount at field 127 is $2,000.

In this situation, field 5230 = $2,000**.**

**Example 3b – Field 124 is greater than 0 but field 155 is less than or equal to zero:**

Fields on the spouse's or common-law partner's Schedule 3:
- Field 124 = gain of $30,000
- Field 155 = loss of $10,000
- Field 132 = gain of $5,000
- Field 127 = $12,500

The taxable portion of field 124 is $15,000 (50% of $30,000). The lesser of the taxable capital gain at field 124 and the amount at field 127 is $12,500.

In this situation, field 5230 = $12,500.

Canada Revenue Agency confidential information

**Example 4a – Field 124 and field 155 are both greater than zero:**

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = gain of $3,000
- Field 155 = gain of $200
- Field 107 = gain of $5,000
- Field 127 = $4,100

The taxable portion of field 124 and field 155 is $1,600 (50% of $3,200). The lesser of the taxable capital gain at field 124 plus field 155 and the amount at field 127 is $1,600.

In this situation, field 5230 = $1,600.

**Example 4b – Field 124 and field 155 are both greater than zero:**

Fields on the spouse's or common-law partner's Schedule 3:

- Field 124 = gain of $35,000
- Field 155 = gain of $15,000
- Field 132 = loss of $10,000
- Field 127 = $20,000

The taxable portion of field 124 and field 155 is $25,000 (50% of $50,000). The lesser of the taxable capital gain at field 124 plus field 155 and the amount at field 127 is $20,000.

In this situation, field 5230 = $20,000.

# Appendix K – Net self-employment income (loss) adjustment amount

Supporting field **5532** is an adjustment field to be used when an individual has more than one business reported at one of the self-employment fields (135, 137, 139, 141, or 143) and reports income from one, and a loss from another.

As the individual's "working or earned income" used in the calculation of the working income tax benefit (WITB) and refundable medical expense supplement should only include the net income (not loss) from each business, field 5532 is to be updated to equal the amount required to negate the loss. Otherwise, the T1 system will only use the amount entered at the self-employment field to calculate the allowable credit at fields 452 and 453.

**Note:** For married or common-law couples, if Spouse A is claiming the WITB for both partners, as his or her working income is higher, field 5532 should still be updated on Spouse B's return if it is applicable to his or her return, in case a spousal match is performed on the returns.

**Example 1:**

Sally operates Business A with a net income of $5,000 and Business B with a net loss of $3,000.

- Field 135 will be a net income of $2,000 ($5,000 minus $3,000).
- The total self-employed income excluding losses is $5,000 (from Business A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

$5,000 (line 5) minus $2,000 (field 135) = $3,000.
Therefore, field 5532 = $3,000.

**Example 2:**

Doug operates Business A with a net income of $5,000 and Business B with a net loss of $8,000.

- Field 135 will be a net loss of $3,000 ($5,000 minus $8,000).
- The total self-employed income excluding losses is $5,000 (from Business A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

$5,000 (line 5) minus $0 (the loss at field 135 is **not** used in the calculation) = $5,000.
Therefore, field 5532 = $5,000.

**Example 3:**

John operates Farm A with a net income of $5,000, Farm B with a net income of $2,000, and Farm C with a net loss of $10,000.

- Field 141 will be a loss of $3,000 ($5,000 plus $2,000 minus $10,000).
- The total self-employed income excluding losses is $7,000 (from Farms A and B).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

$7,000 (line 5) minus $0 (the loss at field 141 is **not** used in the calculation) = $7,000.
Therefore, field 5532 = $7,000.

Canada Revenue Agency confidential information

**Example 4:**

Jennifer operates Business A with a net income of $5,000 and Business B with a net loss of $5,000.

- Field 135 is considered to be zero.
- The total self-employed income excluding losses is $5,000 (from Business A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

$5,000 (line 5) minus $0 (field 135) = $5,000.
Therefore, field 5532 = $5,000.

**Example 5:**

Peter operates Farm A with a net income of $5,000.

- Field 141 will be a net income of $5,000.
- The total self-employed income excluding losses is $5,000 (from Farm A).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

$5,000 (line 5) minus $5,000 (field 141) = $0
Therefore, field 5532 = $0.

**Example 6:**

Serge operates Farm A with a net income of $5,000. Serge also operates Business 1 with a net income of $2,000, and Business 2 with a net loss of $10,000.

- Field 141 will be a net income of $5,000.
- Field 135 will be a loss of $8,000 ($2,000 minus $10,000).
- The total self-employed income excluding losses is $7,000 (from Farm A and Business 1).
- Enter this amount on line 5 of Schedule 6 under Part A – Working income.

$7,000 (line 5) minus $5,000 (field 141) minus $0 = $2,000.
**Note:** The loss at field 135 is **not** used.
Therefore, field 5532 = $2,000

An immigrant must meet the 90% rule for the period of non-residency in order to be allowed the non-refundable tax credits in full. A taxpayer will meet the 90% rule if the Canadian-source income reported for the part of the year while not a resident of Canada is 90% or more of the net world income for that part of the year, or if there was no income from sources inside and outside Canada for that part of the year. The 90% rule is calculated as follows:

$$\frac{\text{(Canadian-source non-resident income x 100\%)}}{\text{(Net world non-resident income)}}$$

If a taxpayer does not meet the 90% rule, the above non-refundable tax credits must be prorated based on the immigration date.

**Situation A:**
Olga arrived in Canada on June 30, 2017. In the period of non-residency (January 1 to June 29, 2017), she had $30,000 of Canadian-source non-resident income and $3,000 of foreign-source non-resident income.

**90% rule calculation:**

$$\frac{\text{(\$30,000 x 100\%)}}{\text{(\$30,000+\$3,000)}} = \textbf{90.9\%}$$

**Example A1 – Allowing non-refundable tax credits in full**

Olga meets the 90% rule and is entitled to the non-refundable tax credits in full.

**The entries to be made are:**
Field 5292 = 30,000
Field 5293 = 3,000

**Situation B:**
Pedro, who is 67 years old, and his spouse Suzanne arrived in Canada on September 25, 2017. In the period of non-residency (January 1 to September 24, 2017), Pedro had $4,000 of Canadian-source non-resident income (employment income) and $5,000 of foreign-source non-resident income. Suzanne had foreign-source non-resident income of $1,000 during the same period. Pedro's net income between September 25 and December 31 was $15,000 and Suzanne's was $800 in the same period.

**90% rule calculation:**

$$\frac{\text{(\$4,000 x 100\%)}}{\text{(\$4,000+\$5,000)}} = \textbf{44.4\%}$$

Pedro does not meet the 90% rule and must prorate the non-refundable tax credits based on the immigration date.

**Example B1 – Prorating the basic personal amount**

Pedro claims $3,124 on line 300 of his Schedule 1, calculated as follows:

$$\frac{\text{(98 days in Canada x \$11,635)}}{\text{(365 days in 2017)}} = \$3,124$$

**Example B2 – Prorating the age amount**

Pedro claims $557 on line 301 of his Schedule 1, calculated as follows:

First, prorate the maximum age amount of $7,225:

$$\frac{\text{(98 days in Canada x \$7,225)}}{\text{(365 days in 2017)}} = \$1,940 \textbf{ (A)}$$

Then, prorate the base income amount of $36,430:

$$\frac{\text{(98 days in Canada x \$36,430)}}{\text{(365 days in 2017)}} = \$9,781 \textbf{ (B)}$$

Since Pedro's net income is greater than amount **(B)**, he must reduce amount **(A)** by 15% of the amount of his income that is more than the prorated base income amount **(B)**, as follows:

$19,000 minus $9,781 = $9,219 (excess amount)
$9,219 x 15% = $1,383 **(C)**

The age amount that Pedro can claim is amount **(A)** minus Amount **(C)**:

$1,940 minus $1,383 = $557

**Example B3 – Prorating the spouse or common-law partner amount**

Pedro claims $2,324 on line 303 of his Schedule 1, calculated as follows:

First, prorate the maximum spouse or common-law partner amount of $11,635:

$$\frac{\text{(98 days in Canada x \$11,635)}}{\text{(365 days in 2017)}} = \$3,124$$

Then, subtract Suzanne's net income (earned while living in Canada):

$3,124 minus $800 = $2,324

**Note:** Should an immigrant be entitled to the Canada caregiver amount (CCA), the CCA should not be directly prorated when the immigrant does not meet the 90% rule. Proration should be performed after adding the base amount and the CCA.
