Clean Technology Manufacturing Investment Tax Credit
(2024 and later tax years)

Schedule 76
Code 2401
Protected B when completed

Corporation's name	Business number	Tax year-end Year Month Day
		2024/12/31

- Use this schedule to calculate your clean technology manufacturing (CTM) investment tax credit (ITC) if you are a taxable Canadian corporation or a taxable Canadian corporation that is a member of a partnership that has acquired CTM property after December 31, 2023, and before January 1, 2035, that became available for use during that period.
- Use this schedule to report any recapture of CTM ITC. For more information, see subsections 127.49(11) to (15).
- The CTM ITC is a specified percentage of the capital cost of the corporation's CTM property acquired in the year for a CTM use, plus any CTM ITC allocated from partnerships under subsection 127.49(8). A CTM property is deemed not to have been acquired by the corporation until it has become available for use.
- The specified percentage is based on when the CTM property was acquired and became available for use:
  - 30% after December 31, 2023, and before January 1, 2032
  - 20% after December 31, 2031, and before January 1, 2033
  - 10% after December 31, 2032, and before January 1, 2034
  - 5% after December 31, 2033, and before January 1, 2035
  - nil after December 31, 2034
- Generally, you may claim more than one clean economy ITC for the same project if the project includes different types of eligible property, as long as you do not claim more than one clean economy ITC for the same eligible property. You may claim the CTM ITC and the ITCs in section 127 (for example, the Atlantic ITC) for the same eligible property.
- The terms CTM property, CTM use, government assistance, non-CTM use, non-government assistance, qualifying material, qualifying mineral activity, and specified percentage are defined in subsection 127.49(1).
- Unless otherwise stated, all legislative references are to the Income Tax Act.
- File this schedule with your T2 Corporation Income Tax Return no later than one year after your filing-due date for the tax year in which the CTM property became available for use. If a recapture of the ITC occurs in the tax year (see Part 2), you must file this schedule no later than your filing-due date for the tax year.

Part 1 - CTM ITC calculation

If you need more space, attach additional sheets.

1A Capital cost allowance (CCA) class number 100	1B CTM property description 105	1C CTM use description 1 107	1D Province or territory 108	1E Available-for-use date 2 (YYYY/MM/DD) 110

1F Capital cost 3 115	1G Adjustments 4 120	1H Assistance repaid 5 125	1I Amount eligible for ITC (column 1F minus column 1G plus column 1H) 130	1J Specified percentage 135	1K CTM ITC amount (column 1I multiplied by column 1J) 145

Amount A (total of column 1K)

1 For each CTM property, enter the code corresponding to its CTM use:
- Code 01: use of a property all or substantially all for activities described in paragraph (a) or (c) of the definition of qualified zero-emission technology manufacturing activities in section 5202 of the Income Tax Regulations
- Code 02: use of a property in a qualifying mineral activity producing all or substantially all qualifying materials

2 The available-for-use date must be within the current tax year. The property cannot be used, or acquired for use or lease, for any purpose before it was acquired. For more information, see subsection 127.49(4).

3 If any part of the capital cost of the CTM property is unpaid on the 180th day after the end of the tax year in which the property became available for use, that part is excluded from the capital cost of such property in the year and can only be added to the capital cost at the time it is paid. For more information, see subsection 127.49(9).

4 Include government and non-government assistance you received, are entitled to receive, or can reasonably expect to receive for the property. For information about other types of adjustments to be included in this column, see subsection 127.49(5).

5 Include government and non-government assistance that you repaid, or you have not received and can no longer reasonably expect to receive, that was applied to reduce the capital cost of a CTM property for a previous tax year. For more information about the repayment of assistance, see subsection 127.49(7).

Part 1 - CTM ITC calculation (continued)

CTM ITC allocated from partnerships (amount from box 292 of each T5013 slip or from each letter)	150	
CTM ITC (amount A plus line 150)	155	

Enter the amount from line 155 on line 170 of Schedule 31, Investment Tax Credit - Corporations.

Part 2 - Recapture of CTM ITC

- A recapture of the CTM ITC occurs when all of the following conditions are met:
  - you acquired a CTM property in the current tax year or in any of the preceding 10 calendar years
  - you became entitled to a CTM ITC for the capital cost of the CTM property, or a portion of it
  - in the current tax year, the CTM property (or another property that incorporates the CTM property) was converted to a non-CTM use, exported from Canada, or disposed of without having been previously exported or converted to a non-CTM use
- If you need more space, attach additional sheets.

2A CCA class number 200	2B CTM property description 205	2C Province or territory 208	2D Available-for-use date (YYYY/MM/DD) 210

2E CTM ITC amount in respect of the particular property 215	2F Proceeds of disposition or fair market value of property 6 220	2G Capital cost of the property on which the CTM ITC was deducted 225	2H Column 2E multiplied by the result of column 2F divided by column 2G 230	2I CTM ITC recaptured (amount from column 2E or 2H, whichever is less) 235

Amount B (total of column 2I)

CTM ITC recapture allocated from partnerships (amount from box 293 of each T5013 slip or from each letter	240	
CTM ITC recapture (amount B plus line 240	245	

Enter the amount from line 245 on Schedule 31, Investment Tax Credit - Corporations.

6 If the CTM property is disposed of to a person or partnership who deals at arm's length with the corporation, enter the proceeds of disposition. If the CTM property is disposed of to a person or partnership who does not deal at arm's length with the corporation, is converted to a non-CTM use, or is exported from Canada, enter the fair market value. See subsection 127.49(12) for more information
